Alyssa Cowles

Objective

I am looking for a steady career while I finish my degree. I work well with Windows, and use Windows and other platforms on a daily basis. I have completed a certificate for Medical Claims and Billing, and am currently pursuing a certificate in full stack web development. I believe being a Coder would suit me perfectly. I look forward to the possibilities that a career in coding may provide.

Experience

Feb 2012 – Aug 2012 McDonalds Ramona, CA
